## THE PHILIPPINE HOSTILITIES.

## SEVEN MORO FORTS TAKEN.

The following are special cables to the Manila Times:—

Camp Vicars, Mindanao, via Malabang, September 22nd.

Captain Pershing, who is in camp at Sanir, fifteen miles southeast of here, reports that on Tuesday he took three Moro forts at Canan. On Friday he took two more at Bayabao and on Saturday took two more at Anir. There were no American casualties, while about twenty-five Moros were killed and twenty wounded. The attacks on the forts were only made after the Moros had refused to lay down their arms and submit to the inevitable. Captain Pershing treated with two Maciu Sultans who remain defiant and think American soldiers cannot reach them. Captain Pershing is now constructing rafts to cross the arm of the lake whereby Maciu Moros can be reached. Rations for the troops under his command were sent him to-day and he will remain until the Maciu Moros submit. The health of the troops here is excellent, the weather is fine and the men are in good spirits.

## Severance.

Camp Vicars, September 23rd, via Malabang. —Capt. Pershing returned last night from a reconnaissance near Maciu. He discovered the Moros strongly entrenched in forts on a small peninsula surrounded by swamps.

The Sultans refused to treat with Captain Pershing and consider their position impregnable. General Sumner will send a message of warning ordering them to surrender stolen horses and to cease hostilities.

## VALUABLE INFORMATION SECURED.

Should the Maciu Sultans refuse to accept these terms another expedition will be started, a trail built and Maciu will be attacked from all sides.

Captain Pershing's expedition has secured valuable information as regards the character of the country and the disposition of the Moros. For fifteen miles southeast of Maciu, which place alone remains hostile, the country has been traversed.

## SEVERANCE.

## HANKOW - CANTON RAILWAY AND JAPANESE ENGINEERS.

The American China Development Corporation who have on hand the building of the Hankow-Canton Railway, have decided to engage Japanese engineers. Mr. Gray, the manager in China and chief engineer of the Corporation, has the *China Gazette* learns, asked Prof. Hiroi of the Imperial Engineering College, Tokyo, to select suitable candidates for such employment. Prof. Hiroi, after consulting with Dr. Matsumoto, the superintendent of the Imperial Railway Bureau, has offered the American company ten engineers, eight of whom are graduates of the Imperial Engineering College of Tokyo, while the other two are graduates from American colleges, and all have been already engaged by the Corporation. They have left Japan for China by the *Awa Maru* and the *Korea*, which left Yokohama on the 20th and 21st respectively. Mr. Ogawa, a Japanese expert on railway affairs, has also accompanied the party.

## CAMPHOR TRADE AT AMOY.

The Wai Wu-pu (Board of Foreign Affairs) has wired the Viceroy Hui of Fukien instructing him that in discussing the regulations regarding the camphor monopoly in his province with the Japanese he shall be most careful to retain all the interests and rights in the hands of Chinese Government etc. The Viceroy is now on the eve of commencing the operation of the camphor monopoly and has reported to the Wai Wu-pu that Japanese engineers belonging to camphor manufacturers having already arrived at Amoy. The Taolai Yuen specially appointed two commissioners in charge of the office of camphor to manage the whole business there. It is decided to promulgate a decree in the locality stating that no private persons are henceforth allowed to engage in camphor trade or manufacture, which is to be carried out solely by the Government factory.

## TIENTSIN DAY BY DAY.

(From Our Own Correspondent.)

TIENTSIN, September 13th. THE RUSSIANS.

A few days ago the Director of the Manchurian railways, Col. Barn Ropp, with Gen. Bolkoff who is acting Gov. General in Alexieff's absence, landed at Shanhaikwan and went straight through to Peking. It is not difficult to assume their object is some new scheme involving Chinese independence, still more heavily. All manner of reports are current as to the handing over of the railway, and various dates are from time to time given. But the British railway staff here know nothing, and work is going forward as if permanency were the card instead of transfer. There is the conviction that the handing over is all but imminent, yet no definite knowledge or preparation. The Ministers are sphinx-like in their secrecy up to the eleventh hour, just as they were in regard to the T. P. G. The Russians are said to be preparing to clear out, but though a very keen watch is being kept by British officers at Shanhaikwan they are unable to say with any degree of certainty how far the alleged movements are genuine. The Russian staff declare they have had a month's notice, but when you come to investigate you find no one knows just when the month dates from, and so on.

## MURDER.

News reached here yesterday that a Belgian engineer on the Lu-Han line had been murdered by armed robbers, who carried off several hundred dollars from his place; but no particulars are yet to hand. It is quite the thing now for armed foot-pads to be met with every where, even at Peitaiho which was formerly a perfectly safe retreat. The postman there narrowly escaped being murdered as he was taking the letters to the residents a man armed with a knife springing out of the Kaoliang. The approach of a foreigner happily prevented the tragedy. The arms flooded on the country by a fanatical government in 1900, have come in useful now for the disbanded Boxers to carry on the lucrative profession of highwayman.

## MORE MONEY WANTED.

Yuan is widely accumulating all the money he can lay hands on, and still the cry is not enough! Wharfage dues from native craft to the amount of Tls 39,000 were handed him the other day. Simultaneously with the complaint of lack of funds comes the report of

COTTAM &amp; CO. FOR TRESS'S STRAW and FELT HATS.

ever-increasing forces, the chief of police now petitioning leave to go to Hockienfu and other places and raise recruits for the insufficient police force. This feverish increase in the so called "police" and accumulation of funds all manner of taxes has something unreasonable in it, and is consequently open to suspicion. The R. W. F. regiment has been unfortunate lately. On the 27th ult. a fracas occurred at Tongshan which has occupied a court-martial all this week. The men concerned were Privates Fisher and Jones, No. 4,227 and No. 4,542, who were charged by a German saloon keeper with intent to murder him. The exhaustive evidence suffices to entirely exonerate Fisher, but Jones' case is not finally decided yet, but it has been stated that he is not likely to come off clear. On his own admission he fired at the German man Becker, though it is equally clear Becker also fired at him. The two were friends, and the whole affair was apparently due to hallucinations from which Jones suffered as an after-effect of severe drinking. Much satisfaction was felt at Fisher's acquittal. Both men were defended by Mr. Kent, barrister, who handle his case well.

## THE ACCIDENT TO A R. W. F.

While the case was proceeding a most unfortunate accident occurred in the Fusilier Barracks by which Private Roberts, No. 5,915, lost his life. He, Sergt. Trowell and another, were examining a revolver in Trowell's hands, when it went off shooting Roberts instantly dead. A warm friendship had existed between Trowell and Roberts, who was a bright young fellow and a general favourite; and the accident temporarily unhinged Trowell's mind. He is a man who distinguished himself considerably in the trouble of 1900 and was well mentioned, while young Roberts had come from South Africa with well earned medals and had a fine record for his 4 years' service.

## VOLUNTEER MOUNTED INFANTRY.

The mounted infantry corps for the volunteer is again being spoken of, and Captain Doughty has been interesting himself in its organization. As the R. W. F. are destined to leave here in October however, so other commanding officer will have to be found. The tag end of our

CORONATION CELEBRATIONS, which comprises the best part of the original programme, is down for the 26th inst. Interest is absolutely luke warm. It is still too hot to make the thought of dancing acceptable, and to make matter worse two other functions come very close. Everyone is gasping for a storm to bring a change. A typhoon ought to have reached us yesterday and may now be on its way judging by the breathless stillness. Three days ago there was a very slight hoar frost at Shanhaikwan, the first of the season.

## PRINCE TUAN.

Prince Tuan is now reported to be at Kaigan. The other day he was with a Mongolian Prince somewhere else. Wherever he is it is pretty certain his movements are understood in Peking. He may be assisting in the raising of the new Tartar Army of 50,000 which is talked about, some officials having pointed out that it is no use keeping the Tartar troops in well paid idleness, so they are to be foreign drilled.

## THE SAINTS SOCIETY.

The practice of charms and diverse performances is reported by a growing society in the south of Peking called the Saints Society. They started out with a study of Confucius, then went on to something else getting down gradually and inconspicuously to Boxer charms and incantations. We shall watch the "Saints."

## PIRATE SHIP CAPTURED.

## ITALIAN CAPTAIN'S ADVENTURE.

Captain Luigi Montani, of the steamship *Sardigna*, which has just arrived at Naples from the United States with a large number of emigrants on board, recounts an extraordinary story of adventure. Shortly after entering the Gulf Stream, near the Mexican Gulf, a suspicious-looking brigantine hove in sight, from which piercing cries were heard proceeding. Captain Montani immediately gave orders for pursuit, and under a threat of sinking the vessel brought her to halt. He then armed his crew, boarded the strange craft, and began to search the vessel.

It proved to be a pirate-ship. Twenty-five pirates, who sought to sink alive in small boats, were surrounded by an overwhelming force, and captured. They were all Caribbean negroes or Creoles. Two beautiful girls were discovered bound to the timbers of the ship, with their mouths gagged, and on being freed they had a heart-rending story of brutality to tell. The brigantine had been seized by these pirates, who wounded the original crew and the captain, whose guests the girls were, and threw them overboard. The pirates thereupon steered the vessel, which had a large cargo of she-goats, towards the Antilles.

Captain Montani ends by saying that he transferred the pirates to the *Sardigna*, kept them in irons, and made for Boston, where he delivered them over to the American authorities.

BERI-BERI.—During the past forty-eight hours two fatal cases of beri-beri occurred in the Colony.

A STRING OF FLAMES on the summit of some of the Kowloon hills yesterday denoted that the charcoal burners had commenced operations.

DUMPING DEAD BODY.—Two Chinamen were fined \$50 each for dumping the dead body of a native who died from beri-beri.

BURGLARY.—A Chinaman charged with entering No. 15, Old Bailey Street and stealing articles to the value of \$15 was sentenced to four months' hard labour.

TWO DECOMPOSED BODIES were found during the past forty-eight hours, one at the hill side Kowloon City Road, and the other at Causeway Bay.

SOUTH AFRICAN MINE INCOME TAX.—The new tax proposed by the British Government for the Transvaal mines is strongly opposed by Messrs. Werner, Beit & Co., who are the mostly concerned.

FALL OF WAGES.—A Board of Trade report on last year's changes in rates of wages and hours of labour in Great Britain and Ireland notes that for the first time since 1895 a decline in wages is to be recorded.

THE SHANGHAI PIRACY CASE.—We understand that Smith, the man who is doing nine months at Shanghai for taking part in the much discussed piracy case was formerly in the Hongkong Police Force and subsequently manager of a local hotel.

MRS. LOCKHART VISITING THE MING TOMBS.—Major Ashe (second in command of the Royal Welch Fusiliers in Hongkong) passed through Tientsin the other week on a visit to the Ming Tombs. The Major is acting as escort to his wife and Mrs. Stewart Lockhart.

FRUIT TRUST.—The latest American combine bidding for the British market is a fruit trust. It has chapters from Massachusetts and Louisiana, and New Orleans in the great clearing port for bananas, pineapples, and peanuts, and Chicago the chief distributing centre.

GIANT THERMOMETER.—The French savants who conduct the Mont-Blanc Observatory have conceived a novel scheme for meteorological observations in winter. A giant thermometer is to be constructed and placed on the peak so that, in clear weather, whatever the depth of snow which renders access impossible, the temperature may be read by those below with the help of a telescope.

A SMART PINNACE.—Many people will no doubt have noticed the movements about the harbour of a long, narrow war pinnace, says a Singapore paper. It belongs to H.M.S. *Arcturion* and is a formidable vessel for its size. It is a twin screw pinnace, but the most remarkable feature is the ram. On the water's edge a stout, sharp ram projects, which would spell destruction to any small craft which might be rammed by this pinnace, especially if the latter was steaming at its fastest.

CONSELHEIRO A. G. ROMANO, Consul-General for Portugal, held an "at home" at his residence, "Duarte," Arbuthnot Road, yesterday morning, the occasion being the anniversary of Their Majesties the King and Queen of Portugal.

SHANGHAI GARRISONS.—A Tokyo contemporary states that Baron Komura, Japanese Minister of Foreign Affairs, has addressed a communication to those foreign powers who have garrisons at Shanghai. He points out that the need for the presence of these troops exists no longer, and suggests a general withdrawal.

LISBON SCANDAL.—Frauds upon the Government to the extent of about £90,000 have been discovered. It is alleged that a director and officers of the revenue office have accepted salaries from various factories and breweries for the purpose of conniving at the frauds. Several of the officials have been arrested, and a terrible scandal has thus been created.

R. Y. S. RACING.—In the Channel race for auxiliary yachts under the auspices of the Royal Yacht Squadron, for the Coronation Cup presented by the Earl of Crawford, Mr. A. V. Armour's *Utopia* passed Ryde at 6 o'clock last evening bearing up to Cowes, the finishing point, in a light breeze. The course was round Cherbourg breakwater, then to the Eddystone light and up Channel.

SIAM AND THE WORLD'S FAIR.—The work of preparing an extensive exhibit for the World's Fair is proceeding energetically in Siam. The work has the support of the King of Siam and the exhibit will give a comprehensive view of the resources of the country and its progress in commerce, arts and civilization. The exhibit will be temporarily installed at Bangkok before shipment to St. Louis.

THE PICKET-BOAT OF F.M.S. *ALBION*, which had been got ashore in the Soochow Creek since the 22nd inst., got off on the flood tide three days later. During the day the men were busy at work digging away the mud from round and underneath her, and making a channel from her stern to low-water mark. As the water rose the vessel floated, and with the aid of a steam launch, was towed into deep water.

PYTHONS.—A python 16 feet long was caught by some Chinese coolies in a vegetable garden at the 14th mile, Kramji Road, Singapore. Another python between ten and twelve feet in length was discovered at the sheer wharves at Tanjong Pagar Dock by some workmen who were engaged in removing timber. The reptile, which was lying still underneath some logs, was very cleverly noosed by some Chinamen.

TO REVOLUTIONISE THE FREIGHT TRAFFIC.—The Illinois Central Railway Company is experimenting with box-car trucks fitted with ball-bearing journals. One man was made to push a car loaded with 80,000 lb. of steel castings. If the system of ball-bearings proves practicable, the loads, it is stated, can easily be doubled, and hauled with the same power now used, thereby revolutionising the freight traffic.

FATAL FIGHT AT CHATRE'S CIRCUS.—A Nagoya dispatch to the *Asahi* states that a fight recently took place among some Indians belonging to Chatre's Indian Circus, which is now performing at Nagoya. One of the men was injured so severely that he died shortly after being admitted to hospital. The other participants in the fracas are being examined by the Procurator at the Nagoya Court. It will be remembered that the Circus was recently in Hongkong and gave two very successful performances.

THE "SHENG-KING".—The China Steam Navigation Company's steamer *Sheng-king* is, we believe, the largest vessel that has yet come up and gone down the river. She is 260 feet long and found no trouble whatever, taking roughly 6 hours each way. The *Tung-chow* got up on the 19th inst., and Messrs. Butterfield & Swire mean to base their decision as to the final movements of their vessels on the Northern trip by Captain Dewar's report on the stream: If the report is favourable, the coasting vessels will hereafter come to the Bund.—P. & T. Times

THE *CHANGWO*, of Messrs. Jardine, Matheson & Co., has been making regular trips to Changsha from Hankow since June. She has attracted much attention, and thousands of natives have gone aboard to see this wonderful steamer. The *Snipe* and the *Vorwärts* paid us a short visit, says a correspondent, but the natives looked with disdain upon these little things, holding that the *Changwo* was much the better and more powerful. The *Changwo* has done a fair amount of business, and is more than paying expenses. This is certainly good for the first year.

EXECUTIONS.—After a suitable cemetery had been provided and the bodies of Messrs. Bruce and Lewis had been buried, Mr. Giles and the two Taoists went into the examination of the prisoners who were participants in the riot. Eight were condemned to die and were beheaded on the river front. They knelt, with bodies erect, which the executioner with his heavy knife struck each across the back of the neck. The blow caused the bodies to fall forward but was not sufficient to sever the head from the trunk. A set of man with a short knife, completed the punishment by a semi-sawing process.

DISHONEST SERVANT-BOY.—Mr. N. G. Evans, manager of the American Bank, charged his boy with stealing a gold watch and chain and a box of cigars on or about the 1st inst. Prisoner pleaded guilty and was sentenced to four months' imprisonment, and on a charge of stealing soap from the Hongkong Hotel Company he was further sentenced to fourteen days.

RECEIVING STOLEN GOODS.—The lynx-eyed Detective Sergt. Morrison discovered that the gold watch and chain, which were stolen by Mr. N. G. Evans's boy, were pledged in a pawnshop by another boy. Accompanied by the pawnbroker he went to the Hongkong Hotel, where Dr. Hunter's boy was pointed out as the person who pawned them. He was arrested and this morning was sentenced to three months' imprisonment. Mr. Hazeland complimented the pawnbroker for the assistance he rendered to the police in bringing home the real culprits.

CHINESE CREW FOR S.S. *KOREA*.—The new Pacific Mail steamer *Korea* is the ship of the hour so it is interesting to note there has been a discussion regarding her crew. Inquiries were made of the American Commissioner-General of Immigration as to whether it was permissible for a Chinese crew to be taken to San Francisco on the steamer *Gaelic*. The crew in question was the one that left the disabled steamer *City of Peking* at Kobe, and a clause in the Shipping Articles permitted them to be transferred to other vessels of the same line. "If they were simply Chinese trying to get back to Hongkong," said Secretary Taylor, "we would let them go on the *Korea* or any other boat so as to get rid of them, but I doubt if a Chinese crew can be brought to this country and placed aboard American vessels."

FIRES IN HONGKONG.

FOUR-STORYED HOUSE BURNED DOWN.

It is not long since that we commented on this being a very bad year for small fire insurance companies. The last big outbreak happened no later than this morning when, shortly after mid-night, No. 116 Jervois Street, a four-storyed house, caught ablaze. The ground floor of this building was a paper shop and the upper stories were occupied as dwellings. On the arrival of the Fire Brigade, under Assistant Superintendent Capt. Lyons, the fire had a firm hold on the building, so they confined their energies to prevent it spreading. The roof collapsed and carried in its fall the second and third floors. The first floor, though covered with a mass of debris, was still standing in the forenoon. At that time the Brigade were playing their hoses into the smouldering ruins from which still exuded a good deal of smoke. The house is covered by insurance to the extent of \$17,000 in the Tung On and other insurance companies. Nos. 114 and 118, the adjoining houses, were damaged by water.

During this fire a contractor's matchbox in the adjoining street also caught ablaze and was razed to the ground. At about eight o'clock yesterday morning another fire broke out in a large heap of coal near Sharp's Buildings at Kowloon, belonging to Messrs. Carlowitz & Co. This is said to have been due to a careless coolie throwing a match into a heap of coal after lighting a cigarette. The Kowloon Brigade, assisted by the Hongkong Brigade who arrived in a launch soon put out the conflagration. The damage was not very serious.

"TAIYUAN" STOWAWAY CASE.

CHARGE AGAINST FIREMEN.

Five Chinese farmers were charged with stowing themselves on the s.s. *Taiyuan* on a voyage from Hongkong to Melbourne, on or about the 30th July last, without the consent of the owner or the master of the vessel. Mr. Hays, of Messrs. Johnson Stokes and Master, appeared on behalf of Capt. Dawson, to prosecute, and Mr. J. Hastings appeared for the defence. On the application of Mr. Hays the two first defendants were discharged by Mr. Hazeland and the case against the remaining three was proceeded with. Mr. Hastings pleaded guilty on behalf of his clients, submitting that they were farm labourers of San Hing district quite ignorant of the laws and customs of this place. It was their people who paid somebody the money and he would ask that their case should be leniently dealt with.

Mr. Hays contended that had they been landed in Australia, the ship would have been liable to a fine of £500, and besides the master would have to pay a personal fine imposed by the authorities there. He requested the magistrate to make an example of these stowaways, whereupon Mr. Hazeland fined them the sum of \$250 each or three months' imprisonment.

The charge against the two firemen for aiding and abetting in such a way as to stow these men on board the S.S. *Taiyuan* without the consent of the owner or the master with intent to defraud the Eastern and Australian Steamship Company, was adjourned. The defendants were allowed out on bail of \$500 each.

THE KOWLOON COLLAPSE.

INQUIRY CONTINUED.

At the Magistrate's this afternoon, before His Worship Mr. F. A. Hazeland and a jury, the inquiry into the collapse of Nos. 30, 32, and 34 Kowloon City Road on the 18th July last was continued.

Mr. H. L. Denny, the Acting Crown Solicitor, was present on behalf of the Government, Mr. H. W. Looker attended in the interests of the architects, Messrs. Leigh and Orange, while Mr. Wilkinson represented the contractor for the houses (the Loon, Chong firm).

The examination of Mr. Leigh was continued and, in reply to Mr. Denny, he said that with the exception of the two end houses on Lot 1,107 the whole of the premises were occupied.

Mr. Denny:—Are Lot 6 and 8 occupied? Witness:—I think so, I cannot swear to it. Are you taking any steps to pull down the party wall between Nos. 6 and 8?—I am not. Has there been any sinking of the foundations of houses on Lots 1,107 and 1,108?—None, as far as I can say.

To what do you attribute the cracks in the party wall between Nos. 6 and 8?—Not to any defect in the party wall itself, but to the tendency of the back wall to go outwards.

Is there any settlement of the foundations of the back wall?—None.

Then to what do you attribute the going out of the back wall?—The whole cause of the collapse is owing to the joints becoming softened through the continuous rain, thus being unable to stand the pressure of the other portion of the wall.

In what portion of the back wall do you say this softening has occurred?—Principally at the level of the first floor.

With reference to Lot 1,108, and to houses Nos. 52, 54, 56 and 58, what has happened to those?—Exactly the same thing—the softening of the mortar joints at the level of the first floor causing the walls of the two upper floors to fall out; the ground floor being in fact uninjured.

How many party walls of the houses in Lot 1,108 are cracked?—I could not say; these are the worst I have mentioned.

Can you give us any idea of how many of the party walls on these two Lots are cracked?—I cannot. It depends upon what you call cracked.

Would you say that every wall has some slight crack?—It is very likely they may have. There is some evidence of cracks in the back portion of the party walls.

Continuing, witness said that in the south wall of the most southerly house on Lot 1,107 the same thing occurred. That was to say, there were cracks and the whole of the gable wall had a tendency to fall out commencing at the level of the first floor. There were cracks in the wall close to the front verandah where the gable wall parted from the front wall. The cracks were caused by the tendency of the gable wall to fall out. There was no sinking of the foundations of the gable wall, and the reason it had a tendency to fall out was because of the softening of the mortar joints.

Mr. Denny:—It comes to this, does it not, that all four gable walls of these two blocks had a tendency to fall outwards and that the back wall of both blocks also had a tendency to fall outwards?—That is so with regard to the back walls of those blocks and also the North and South walls of Lot 1,107, but not as regards the gable walls of No. 1,108. Shortly after the typhoon of the 2nd of August it was decided to pull down the southern gable wall of Lot 1,107.

Did you report to the Land Investment Company that the wall of this house was to be pulled down?—I did not; I also omitted to give notice to the P. W. D. before commencing work. Under the Ordinance we have power to commence work in cases of emergency without giving notice. There is no settlement of the foundations of these two blocks. The ground story walls of all the houses are in good condition.

Continuing, witness said that on arriving at his office on the 19th July he first heard of the collapse of these houses and went over and inspected them that day. Mr. Chatham and Mr. Tooker were also there. They met by accident. Roughly speaking, the northern wall of No. 30 collapsed from near the front wall, back almost to the back wall and down to the first floor level. The roof also fell in. He thought that when the wall collapsed it knocked the wall of No. 32 in. These two walls were plastered with two coats of plaster of a total thickness of half an inch. His first impression was that the wind must have got into the building and blown out the gable wall, but having regard to the many other damages to walls at the time of the typhoon he afterwards thought that some other material cause was at work to bring about these collapses. He no longer attributed the cause of the collapse of No. 30 to the softening of the mortar joints thus causing the wall to become out of plumb, and as this softening would be mostly on the outer case, that was where the rain beat against it, the natural tendency of the wall would be to fall outwards. There were four tie rods, about an inch in diameter on each floor, and each tie rod had a washer plate nine inches square. On the portion that collapsed the tie rods all remained attached to the party wall and the washer plates at the outer ends remained attached to the tie rods. That showed that the plates must have been pulled right through the brickwork of the wall when the wall fell outwards. It also showed that the brickwork must have become softened from continuous rain. This was confirmed by the brickwork of the house left standing. The witness considered that both the bricks and mortar were softened.

The further hearing was adjourned until to-morrow morning.

THE CORONATION CONTINGENT.

TO-MORROW'S PROCEEDINGS.

The Hongkong Volunteer Contingent, Contingent arrive to-morrow morning by the Canadian Pacific Railway Company's steamship *Empress of China*, which is due about eight o'clock. Should the vessel arrive up to time, or before time, as is usual, the following is the programme:—The Contingent land at Blake Pier at 9.30 a.m. and will be played by the Band of the Hongkong Regiment up to the Parade Ground. His Excellency Sir Henry Blake will inspect them about half-past ten. We hear that several local launches will go off to the steamer to convey representatives of our community with the hearty tidings of "welcome home." Reports are also current that special dinners are in course of preparation. No doubt all will have a hearty reception and in return will spin many a good yarn about their sojourn in the "old country."

THE KOWLOON TRESPASS CASE.

GOVERNMENT WILL NOT INTERFERE.

With reference to the charge of trespass recently brought against two Indian soldiers for going upon private property at Kowloon and stealing fruit and which was dismissed by Mr. J. H. Kemp at the Magistrate's, we now learn that an intimation has been received from the Colonial Secretary, to whom the matter was referred, that "His Excellency the Governor sees no cause to interfere with the decision of the Acting Police Magistrate." The matter thus ends, but meanwhile Mr. Letton's fruit is still going, and the trees are beginning to look very bare. The other day, Mr. Letton caught a member of the H.K.S.B.R.A. in the bungalow garden stealing fruit, and detained him pending the arrival of the police. When they appeared on the scene, they informed Mr. Letton that he could not charge the man as he had no fruit upon him when arrested. The Indian soldier might not have known he was doing wrong, although he was not ignorant of the fact that if any fruit was found upon him, it would be somewhat awkward. Nevertheless, his number was taken by Mr. Letton and a photograph secured of the "innocent intruder." Only this morning two more of these "hungry gentlemen" made a mistake by walking unconcernedly into the garden and approaching the fruit trees. Seeing Mr. Letton close by, they realised the difficulty and bolted. All this is happening notwithstanding the promise given to the Acting Magistrate by the British officer, who occupied a seat on the Bench with His Worship, that the soldiers would not trespass again. It would not be a bad idea to set a man trap in the garden, and when its ugly teeth gnawed the leg of the "innocent" trespasser, meekly plead, "I am so sorry, it wasn't meant for you."

## Serious Charge Against a Foreigner.

ALLEGED HEAVY MISAPPROPRIATION.  
YOKOHAMA, September 18th.  
A charge has been laid before the Public Prosecutor in Yokohama against A. Le Prevost, formerly an employee in the silk department of Messrs. Cornes & Company, of Yokohama.

Le Prevost, together with four Japanese, is accused of misappropriating the sum of three hundred thousand yen.  
[We believe Mr. Prevost has been a resident of Yokohama for some twenty years. He was previously connected with a mercantile firm in Shanghai and after his arrival in Yokohama was for some months sub-editor of the *Japan Gazette*. He then joined Messrs. ## FATAL LAUNCH ACCIDENT IN DEEP BAY.

CHINESE PASSENGER DROWNED.

When the Hongkong Sam-chun launch was entering Deep Bay between ten and eleven o'clock on Saturday morning, owing to the low tide the vessel was unable to proceed along-side, and was met by a smaller craft from Sam-chun to convey the passengers ashore. A Chinese passenger from Hongkong, while trying to jump into the boat missed his footing, and was jammed between the launch and the boat, and ultimately drowned. He was a Hak-ka man, and is said to have had \$100 in his possession, with which to buy shoes for the Hongkong Market. His body has not yet been recovered.

## CELEBRATED AERONAUT AND HONGKONG.

AN OLD FRIEND.

It will be remembered that the Hongkong public first learned through the *Hongkong Telegraph* special service of telegrams on the 20th inst. that Mr. Spencer, the famous English aeronaut, had successfully navigated an airship over London. A correspondent now writes pointing out that Mr. Spencer is an old friend of this Colony. He visited us with a parachute and captive balloon in the latter part of the summer of 1897, and was going to make an ascent at West Point. Owing to some hitch the programme was changed to a parachute exhibition on the Race Course. One Sunday, while holding an exhibition at Bay View, during the filling of the balloon a small tear was seen by the aeronaut. Notwithstanding this, the performer with undaunted pluck made an ascent, placing reliance on his parachute. At the critical moment, however, the parachute would not open, and poor Spencer fell to the ground, and fractured his leg, or thigh, in two places. He was at once attended by a local doctor, and was later sent to the Government Civil Hospital, where he remained until his departure for England.

Mr. Stanley Spencer belongs to a family of balloonists, and worthily carries on the business of his forefathers who, for over 100 years have spent much of their time in the clouds. While in Hongkong, where he was very popular and made many local friends, he was then working on his airship.

## MACAO'S INDIGNATION.

THE BIRTHDAY OF ITS KING.

Yesterday was the anniversary of the birth of His Most Faithful Majesty Don Carlos, the King of Portugal. At Macao for the past week preparations were in progress to celebrate the event in a manner befitting the auspicious occasion. At length when the day arrived king's weather favoured it and all that remained to make the function a complete success at Macao, reposed in the perfect serenity of its charming peacefulness, was the wonted enthusiasm which former years witnessed on the day of Portugal's annual rejoicing at home and abroad. Alas! for an estrangement which the governing class had created with the sons of the soil, general enthusiasm this year was conspicuous by its absence. The festivities fell flat. The arrangements for the illumination in the evening did not equal those of last year, and the usual concourse of eager holiday-seekers and participants in the national feast was minus the large majority of the Macanese element. The occasion was shorn of that manifestation of loyalty which, under ordinary circumstances, is such a salient feature of the community's attributes. It is a reconciliation is made by the early abrogation of the recent unconstitutional and obnoxious legislation of the *esprit de corps* once so evident will continue to be absent from all social and public functions in Macao. The beginning of the end appears to have dawned upon the progress of the course of politics there, and Government would do well to bend to conciliation from its autocratic supineness. At the last meeting of the Municipal Council included in the agenda list of the day's business was the invitation from the Government for the Municipal Councillors to take part in the festivities of the 28th inst. The president of the council (Mr. A. J. Basto) in introducing the subject said that it devolved upon him as an imperative and no less painful duty to formally move that the Council do not participate in the national rejoicings this year. The occasion was one which in former years had called, and rightly so, for a true patriotic demonstration from the people towards a sovereign to whom they all owed allegiance and for whom they cherished feelings of the greatest devotion and respect. The present was one, however, which he and, he hoped, his colleagues would mark with feelings of sorrow. He disclaimed any disloyalty. None was more loyal to his king and his country. Hence it was that his grief was the more poignant when he pointed to the framing and promulgating of laws by the local and home governments in violation of the glorious precepts secured to the nation by the Portuguese Constitution. The new Press Law and the new Police Regulations were both flagrant instances of action which not even the King himself was empowered by the *Carta Constitucional* to force upon his people. It behooved them to preserve inviolate the birth-right conferred upon them by the Portuguese Magna Charta, which he for one would regard as the sacred, inalienable inheritance secured to every free, law-abiding citizen. The bulwark of the righteous rested in the prerogatives granted to every man and no constitutional enactment could undermine it. He had made his views clear and he regretted that he could not see either the Administrador do Concelho or his deputy present at that meeting to convey to the Government the motion which he had brought forward as a protest against the unwarrantable action of the local Government against a people "none more loyal." The resolution was not seconded. When the "City Fathers" had each expressed his views, respectively, the president said that he quite appreciated the attitude which circumstances forced upon them to adopt. He was quite alive to the fact that all being in some measure or other connected with and dependent upon the Government no other course was open to them but a tacit submission to the irrevocable laws of the inevitable.

No sooner did the sun spread its rays on a cloudless sky looking down upon the placid waters of Macao's roadstead on Sunday, than the strains of the garrison band could be heard in town sending forth its mutual greetings on the birthday of the Portuguese King. The inhabitants in the vicinity of the barracks were aroused by the martial air of the national anthem, and as it was the Sabbath, at an early hour people could be seen winding their way to and from Church in the different parishes. At 8.30 a.m. a *Te Deum* was sung at the Sé Cathedral where the officials attended in state and the people gathered in homage to their Sovereigns—spiritual and temporal. As might have been expected, after what has been stated above, the president of the Senate was not present nor did he attend any of the later functions in the day. A reception was held by the Colonial Secretary (Dr. Alfredo P. Lello, at Government House, who officiated in the absence of His Excellency the Governor. At the levee all the principal military and civil officials were present. A royal salute was fired at noon, the war vessels in port, (H.M.S. *Moore* and the Portuguese gunboat *Zaire*) presenting a smart festive appearance in being "dressed" for the occasion. A review of the troops was held in the afternoon; this part of the day's programme being rather tame to those accustomed with the spectacle of large numbers of men on the field on like occasions. Praia Grande was, however, the centre of attraction for the native populace. Throughout the day and under the rays of a hot tropical sun gangs of coolies, under the direction of an indefatigable staff of officers of the Public Works Department, who were responsible for the street decorations, were busily at work, linking the top ends of Venetian masts, that had been erected on the bund, with floral

garlands. These masts were planted in two rows on either side of the road from Chunambeiro, or the western end of Praia Grande, as far down as Bing Kee's hotel. Floral arches overhead bridged the roadway, converting the well-laid road for the nonce into a veritable avenue through which the day's traffic was conducted. At the base of these masts in front of Government House pot-plants were arranged on porcelain stands, the effect of the green and the variegated colours of the crotons being extremely pleasing. At night, hung beneath the strings of ever green were rows of lighted Japanese lanterns. A device arranged opposite Government House in a huge cluster of lanterns gave the scene a pleasing effect as a blaze of light shining on the surface of the dark water of the bay beneath. The trees were literally festooned with strings of lighted tapers within coloured lanterns, and the prayer wall had placed on it in distances not too wide apart sets of lanterns of threes and fours. The Chinese turned out in fairly large numbers to witness the "show," but the other sections of the inhabitants were meagrely represented. The crowd was remarkably orderly and at no time gave the faintest indications of trouble to the police.

To wind up the day's programme a ball was given at Government House where Dr. and Mrs. Lello dispensed hospitality as became the representatives of the Government. The invitations which were issued to the community in general were not so cordially responded to as they would have been had the same pleasing harmonious relations that prevailed between the Government and its people existed now.

## THE "ANNIE H. SMITH."

GIVEN UP AS LOST.

BOUND FOR HONGKONG.

The British sailing ship *Annie H. Smith*, which was sighted over a month ago in the Bananga Channel dismantled and flying signals of distress, has not been heard from since. The *Big Bonanza*, an American sailing vessel, was the last ship she spoke to, and that was over thirty days ago. The *Annie H. Smith* was coal-laden en route to Manila, and signalled that she was crippled but was making for Hongkong for repairs. She refused assistance.

Lloyd's agency in Manila received the duly authenticated report of the speaking of the vessel from Captain Bigman of the *Big Bonanza*, but in the telegraphic and maritime reports there is no mention of the *Smith* having arrived at Hongkong. It is feared that she "foundered after refusing assistance, and that her crew of 36 have gone down with her. She is virtually given up as lost. No member of her crew has been heard from.

The *Annie H. Smith* is a British collier of the sail type plying between Newcastle and Manila in the interest of the local trade. Many of the representatives of English shipping interests were called upon, but all denied that the vessel or its cargo were consigned to them.—*Manila Carlewens*.

NEW SHIPPING MOVEMENT.  
IMPORTANT OPERATION.  
Within a very short time a new company, known as the Northern Steamship Company, will be operating all of the liners plying from the Sound to the Orient, Alaska and California as one great fleet, says the *Seattle Times*. The proposed incorporation will include the boats belonging to the Pacific Coast Steamship Company, those operated by the Northern Pacific Trans-Pacific Steamship Company, the liners in the fleet operated by Frank Waterhouse & Co., and the Nippon Yusen Kaisha's *Seattle fleet*.

The vessels in the Northern Steamship company's merged fleet will be the following: *Kaga Maru, Shinano Maru, Kinsiu Maru, Tosa Maru, Iyo Maru, Ryojun Maru, Victoria, Tacoma, Tremont, Olympia, Shawmut, Lyra, Hyades, Pleiades, City of Seattle, Cottage City, Spokane, City of Topeka, Al-Ki, City of Puebla, Queen, Umatilla, Valencia, Senator*.

In addition there will be the boats operated by the Pacific Coast Steamship Company. The lines will be divided as follows:—*Lynn Canal—Spokane, City of Seattle, Topeka, Cottage City, Al-Ki*.  
Nome—*Valencia, Senator*.  
South China—*Victoria, Tacoma, Olympia, Tremont, Shawmut, Lyra*.  
North China—*Hyades, Pleiades* and the Great Northern's new liners.

California—*Umatilla, Queen, City of Puebla*.  
On the Southern California run there will be the boats now operated by the Pacific Coast Company.  
Japan and China—*Kaga Maru, Shinano Maru, Kinsiu Maru, Tosa Maru, Iyo Maru, Ryojun Maru*.

## THE WEATHER.

The following report is from Mr. F. G. Figg, Acting Director of the Hongkong Observatory:—

On the 29th at noon: The barometer has risen along the China coast and over the Philippines.

The Japanese observations of yesterday afternoon show that the typhoon had then approached the S. coast of Japan between Kobe and Yokohama.

Pressure remains high over the interior of China with light variable winds along the coast, and moderate N.E. monsoon over the N. part of the China Sea.

Forecast:—light N. winds; fine.

## ST. JOSEPH'S COLLEGE, HONGKONG.

OWING to the insufficiency of accommodation in the present building—and the increasing demand for admission, it has been found necessary to extend the wings of the main building and to enlarge the Chinese department—by an additional storey with two wings. The estimated cost will amount to over \$15,000. To cover these expenses we Appeal to the liberality of all friends of Education. The establishment has been in existence for the last 25 years and is open to all classes. Much of the clerical work of the city is carried on by its past pupils. As this is the first time we have applied for assistance we expect a generous response. The names of our most liberal Benefactors will be inscribed upon marble tablets, as a lasting testimony of their generosity.

## DRESSMAKING DEPARTMENT

AT 34, QUEEN'S ROAD.

This section of our business is a new venture and has met with extraordinary success during the past 11 months.

All work cut and supervised by our dressmaker who, having had High Class Colonial and Home experience has attained the  
knowledge required to connect Style and Fashion with comfort in creating suitable toilets for Eastern wear.

We intend making this department a specialty and ladies will do well to give us a trial.

Our London and Parisienne buyers have Instructions to keep us up to date and supplied with all the latest and most  
Fashionable Goods so that our patrons may be assured of procuring everything of the newest and best.

Ball Dresses, Bridal Gowns, Afternoon Costumes. Mourning orders executed at shortest possible Notice.

Space will not allow us to quote the thousands of articles stocked in this establishment, but two words will convey all that is  
necessary, viz., GENERAL STORE. Do not fail to enquire for ANYTHING you may want.

September 18th.

R. G. HECKFORD,  
MANAGER.
